PROFILE

Motivated and detail-oriented Information Technology student with foundational knowledge in database management, technical support, troubleshooting, networking, and UI/UX prototyping. Experienced in assembling computer systems, diagnosing hardware and software issues, and supporting technology-related tasks through academic and work immersion experience. Proficient in SQL, PHP, Figma, and database fundamentals, with strong communication, teamwork, and problem-solving abilities. Eager to apply technical skills, learn emerging technologies, and contribute effectively in IT support, software development, and technology-driven environments.

EDUCATION

Technological Institute of the Philippines
Bachelor of Science in Computer Science

Quezon, Philippines
