EXPERIENCE

Jose Rizal University - AWS Learning Club / Creatives Chief Officer

Jan 2026 - Present

Visual Strategy and Planning

- Directs the end-to-end creative process for social media content, leveraging Canva and Figma to enhance organizational branding and student engagement.

Project Oversight

- Manages cross-functional team communications and project timelines, ensuring the successful execution of AWS-themed workshops and seminars.

UI/UX Designer & Developer / Project-Based

Jan 2026 - Present

- Translates complex user requirements into high-fidelity interactive prototypes in Figma, focusing on intuitive navigation and accessibility.
- Develops and deploys responsive, SEO-friendly websites using Webflow, bridging creative design with functional front-end code.
- Conducts user journey mapping and information architecture planning to optimize digital product experiences.

PROJECTS

Kape4U / Figma, Canva

- Developed a user-centered mobile app concept for locating local, student-friendly cafes; optimized search filters based on affordability and visual appeal.

MyNagaHealthApp / Flutter, Figma

- Engineered a health-management solution for the Bicol community, integrating emergency scheduling and health tracking features.

Moodify / Figma, Canva

- Conceptualized a 3D-inspired music interface that utilizes dynamic color-coding to reflect user productivity and mood highlights.
